About Ride the Point

Thank you for signing up for the Point Loma Rotary Club 8th Annual Jim Krause Memorial Ride the Point to support pancreatic cancer research. Jim Krause was a long-time resident of Point Loma, an avid cyclist, and a past president of the Point Loma Rotary Club. He succumbed to pancreatic cancer, leaving a great legacy of service to the community. In his memory, his family and many friends are sponsoring the ride to highlight the beautiful cycling areas around Point Loma and surrounding neighborhoods, promote a healthy lifestyle, and raise awareness of pancreatic cancer. Ride the Point is an all-volunteer event, and proceeds will stay in the local community to fund pancreatic cancer research at UC San Diego Moores Cancer Center and other civic projects. With your support we have raised over \$200,000 for pancreatic cancer research

Pancreatic cancer is the 4th leading cause of cancer-related deaths in both men and women. The overall 5-year survival for patients diagnosed with this disease is only 5.6 percent, and research over the past few decades has done little to improve these statistics. To address this need, a team of researchers at UC San Diego Moores Cancer Center is dedicated to the development and translation of new discoveries that will improve the outcome for patients with pancreatic cancer. You can learn more about Moores Cancer Center at <http://cancer.ucsd.edu>.

For over 70 years the Point Loma Rotary Club has participated in local, national, and international service projects. Local civic projects supported include leadership programs at local schools, Scouting, YMCA, Point Loma Library, Point Loma Summer Concerts, Children's Hospital, Humane Society, Meals on Wheels, Holiday Helping Hands, Shelter Box, Clean Water for Fiji, and Polio Plus. For more information on the Point Loma Rotary Club, visit www.pointlomarotary.org.

We hope you enjoy the ride, and let us know if there is anything we can do to make it better –

Sincerely,
Richard Stakelum, Ed.D.
